

2009-01-31 New Product Announcement  
Cell IPS : Models IPS-200/500/1000P

This product release update notice serves as a formal marketing communication of Cell Technology to inform partner/or customer that Cell product(s) has been enhanced/or released into the market.

### Cell Product

#### Cell IPS More New Models Release IPS-200, IPS-500, IPS-1000P

#### Overview

Cell Intrusion Prevention System (IPS) is a next-generation of network security appliance with Cell's proprietary Custom Real-time Intelligent Operation System (CRIOS) and Intelligent Packet Processing Engine (IPPE) developed and embedded into an appliance system. It can take one step ahead the hacker penetration and prevent any attacking packets included notorious spywares, intrusion attacks, virus/worms and tunneling software to reach your network in real-time basis. Cell IPS supports 3000 pre-defined signature rules to protect your networks and with on-line Signatures Update (SU)/Knowledge-Base (KB) automatically from Cell Security Service Centre (SSC) to defense against any latest threats and intrusion attacks. This new product models announcement highlights more Cell IPS models have been released into the market for our customer demand growth. This document to partners or customers is for marketing purpose and the product details are referred to our datasheet or specification that can be downloaded in Cell e-TAC.

#### Cell IPS New Models Release

1. **Cell IPS-200** supports up to 200Mbps throughout and targets for SME markets and managed IPS services models.
2. **Cell IPS-500** supports up to 500Mbps throughout targets for multi-national enterprise network deployment.
3. **Cell IPS-1000P** supports up to 1Gbps throughput. It supports dual power supply/system fan, optional 4 SFP fiber interface and RAID external storage for logs backup and resiliency. It targets for large enterprises or carriers network deployment.

#### Cell Support Centre

For any Cell partner or direct customer technical support, the **Cell e-TAC (On-Line Technical Assistance Centre)** is located at <http://support.cell-technology.net> for you to download any technical documentation, product information and latest product software release for our product installation and maintenance.

#### Cell Customer Support

For any Cell customer support, you should contact your authorized distributor or reseller in the first instance. Cell Customer Support Centre for Asia Pacific region is located in Hong Kong SAR. Email is preferred method of initial contact.

Normal Business Hours : 9 am to 6 pm Hong Kong CST  
Technical Support Email : [support@cell-technology.net](mailto:support@cell-technology.net)  
Telephone : +852 2893 9388

#### About Cell Technology

Cell Technology headquartered at Hong Kong SAR, a network & security technology provider specializes in design, develop and deliver innovative and intelligent IP packet processing platform into software and hardware appliances. Cell product solutions including Cell IPS, UTM, CMC, Janus, TMS, NetsVision and NetsAccess address the business needs that optimize the IP network performance, secure the network security and resiliency, and manage the quality of IP services.
